**About ANTON SMIT:**

Widely revered for his overwhelming heads and monumental african sculptures, evoking themes of suffering, reconciliation, glory and sublimation, his works grace public and private collections worldwide. Possessed of a raw, earthy power that feels innately African, his body of work comprises towering human figures, nudes, impressive heads, masks, hands, angels, floating and stretching figures, warriors as well as abstract works.

Anton likes to imbue with an illusion of movement or gesture, bodies curling up or limbs reaching out to the onlooker, inspirational "action figures" projection emotion, a call to movement.

He works with metals, stones, bronze also creating a unique iron and polymer cast mixture. Anton's work is included in the permanent collections of the Pretoria Art Museum, Rembrandt Foundation, Graff/Delaire Collection.
